Are you ready for the digital TV transition?

On Feb. 17, 2009, all full-power stations will stop broadcasting in analog and switch to 100 percent digital broadcasting.

Older television sets that do not have digital tuners, and that are not connected to cable, satellite or another pay TV service, will need a simple converter box in order to continue to receive free antenna television.

There are three ways to upgrade the sets in time:

- Purchase a new television set with a digital tuner.
- Purchase a converter box.
- Subscribe to a pay television service like cable or satellite.

The government is providing coupons to be used toward the purchase of converter boxes.

For more information on the digital television transition, and to apply for a TV converter box coupon, click here.
